lillian silk mills (1st mill)
aero mils (for parachutes but couldn't get the silk–no priority because earlier mill closed) made dress silk instead bought from thiessen (an american firster)

bemberg–synthetic thread better than rayon

brought home spool of first nylon

40 looms
the twister to attach the next warp
soak the skeins and dry (pk would do it on saturdays sometimes)
each thread that goes though is a "pick"
the winders
the quill winders
warper
weaver
the twister (what kind of not) johnny reeser
loom fixer

the quill would shuttle

settles or heddles to make the in and out for the quill shuttle

picking. taking stuff that fell into material

slubs– lumps in italian silk

spillways for water?

mills were jewish. dying italian.

paterson – the lyon of u.s.
